DIRECTIONS FROM MUMBAI (Bombay)

Take the new **Mumbai-Pune expressway to Lonavla**. Get off the expressway at the **Lonavla / Karla exit** (after the Khandala exit). At this exit you will pass through a toll way. **Zero your trip odometer here**. After the toll way you will be on the old Mumbai-Pune highway. The next turnoff will be approx 15km from the toll way. Here are some markers you'll see on the way

- MTDC Resorts, Karle
- Sheetal Dhaba
- Sunny Dhaba.

10.5 km from the toll way

you will cross over a river bed followed by a bridge over train tracks.

12 km from the toll way

a road will branch off the main highway to the left. Stay on the main highway. It will wind up a hill and back down.

15 km from the toll way

and shortly after descending the hill, take the left lane so that you can enter into Kamshet town. This left is a small little road so look out for it. **This is Kamshet.**

Less than 0.1 km after taking the left, there is a fork in the road. Stick to the right and then take another right. Within minutes you will see **an archway**. This is the road to the **Vadivali Dam, Golden Glades and Native Place**. **Zero your trip odometer here**. It will be another 10.8 km to Nirvana Adventures and the Native Place. In general, stick to the "paved" road unless noted otherwise.

In the mean time, here are some markers you'll see on the way:

- 0.5 km you will pass over the railroad tracks
- 1.2 km you will cross over a river
- 2.8 km you will pass a radio antenna tower next to the road on the left.
- 5.7 km you will pass the Fila Rojil farm on the right.

At 8.5 km you will reach a fork in the road with a bridge over a river on the left fork and a small white concrete marker on the right fork. Take the right fork. (You will not get signal here to call from a mobile so simply stick with the directions) Shortly thereafter you will soon see the lake off to your left.

At 9.2 km you will reach another fork and another small white concrete marker. Take the right fork up the hill.

At about 10 km you'll see Raikar Farms on the right and two more white gate houses on the right about 0.5 km further. At this point you will see a large house with a red roof off to the left. Continue straight ahead and take the first left after the house with the red roof (there will be a "Nirvana" sign on the corner).
